

**Kamal Achab**  
**Senior Commercial Specialist**  
**U.S. Embassy, Algiers, Algeria**

Kamal Achab has worked as the Senior Commercial Specialist at the U.S. Embassy in Algiers since 1996. Kamal supports US firms with market entry strategies in the five following sectors: Conventional energies & renewable energies, Infrastructures & water resources technologies, Safety & Security, Healthcare, and Information & Communication Technologies. Prior to 1996, Kamal worked for five years in the US Embassy as an Economic Assistant, which included numerous interactions with the World Bank, International Monetary Fund, the Algerian Government and various financial institutions.

Kamal has extensive experience understanding the underpinnings of global business. He earned an undergraduate degree from City Montpellier University in Montpellier, France with a concentration in Economic Sciences. He also completed the first half of his Masters degree in Toulouse, France, in Corporate Management. He has lived in Algeria, France, China, and Greece, and speaks French, English, Arabic, and Berber (local tongue).

Kamal is the primary U.S. Embassy contact for U.S. Energy, Environmental and Water Resources Management as well as Construction services sector firms seeking Algerian partnerships, information about the Algerian market, or background checks on prospective partners.

Kamal Achab is 48, married in 1997 with two daughters Maya-Amelysse 13 and Elya-Ferroudja 9 years old.
